17TH STATE BREED EXHIBITION
SUNDAY, 20TH MAY, 2018
OPEN CLASSES JUDGE: MR. VINCE TANTARO

I would like to thank the members and Committee for the invitation to judge all the Open Classes at this year's State Breed Exhibition.

GSDCA State Breed Exhibitions and or Assessments are conducted by a number of GSDCA Member Clubs and are since the demise of the Main Breed Exhibition one of the vehicles by which breed direction can be given. I can only reiterate my strong opinion that I believe this type of event only has true value if it is run in conjunction with the GSDCA Main Breed Exhibition. Noting the falling number of entries and fact there are high expectations by exhibitors to be awarded the coveted GSDCA Excellent Merit grading sees entry in the Open Classes far less than it should be. It was evident this year that whilst the total number of entries was up on last year there were more scratching's. Noting this, I can only emphasise that my judgements as made and the breed advice as given is as result more about what I observed and the wider picture of my attending a number of shows in the last year and the recent National held 2 weeks before this event.

Sires Progeny: there were 4 eligible sires that could have presented groups on the Sunday- however only 2 did! Noting the fraternity's desire to have this 'Breed' show, I can only ask in future, all entries that are eligible to participate in a Sires progeny please make the effort to turn up for what is a most important part of the show. Rescheduling and having it conducted on the Saturday of the show may assist in having all as entered participate. Noting that both the following sires had presented groups at the National just held 2 weeks ago, my comments in the main reflect what was seen then in what were far larger groups where further comment and analysis can be read in coming edition of the GSDCA QNR.

*Ch Eroica Catch Me If You Can A Z: presented a group of older LSC animals that was of very high quality, large to very large, well coloured and pigmented animals of very good/ desired type. This sire has established himself as most predicable producer and it is hoped that both his sons and daughters will also carry his line well into the future.

*UK Ch Conbhairen Freddie a ED: presented a group of very promising youngsters and therefore like at the National comment provided must be taken with a degree of caution. The positive traits seen are animals that are of very good type, have clear distinction between males and females, very good proportions, very good colour and pigment. They cover the ground well where reach could be freer and wither held higher. Hindquarter angulations are slightly deep. The lack of firmness and stability of the hindquarter must be noted. I look forward to seeing this group further develop in the future.

I have included comment at end of each animal's critique with regard to their performance and grading. The awarding of Excellent Merit was not taken lightly. I applied strict criteria to the awarding of the GSDCA Excellent Merit grading: the animal must be of high quality, of desired type and have the potential to consolidate the breed through its pedigree and or progeny as seen at the show.

What is evident both at this show and the National is a lack of consolidation of desired type. I offer that breeding programs are based on compounding faults rather than improving breed type. The aim must be to cement type and a degree of predictability and then to concentrate on improving the bitches' faults.

In closing I would like to thank the exhibitors who supported this year's event. Noting the absence of entries from some breeders / exhibitors, I can only encourage those that have been aggrieved in the past or believe whoever is judging this event may be incompetent to actually support the show: without a full showing of all animals as shown at our other shows in this State the show cannot represent the state of the Breed in Victoria.

I would like to thank my stewards Ian Urie & Frank Moody, my stenographer- Judith Strachan, David Organ- Show Manager and his committee and the Club for their kind consideration, welcome and hospitality as extended to me.

Kind regards

Vince Tantaró

Hocks should be firmer. In movement shows very good ground cover, very good reach, the drive could still be more effective. Falls slightly on the forehand. Off lead gaiting performed very well, showed good movement, falls slightly on the forehand. Outgoing character. Gun sure. A bitch that offers much from a breeding perspective- she is a quality bitch, unexaggerated, overall well constructed. Noting her sister (Ex3) and mother (Ex4) she also offers a degree of predictability. She lost a number of places as her gaiting performance was not convincing and her hocks should have been firmer.</p>

Y:2 M:8 D:29 Height/Depth of Chest: 58.5/27.5. Large, medium strong bitch of good type whose colour and pigment should be stronger. Feminine expressive head, eye colour should be darker. Underjaw should be stronger. Slightly short neck. High wither, firm back. Slightly short steep croup. Stands correct in front. Well developed forechest short underchest. Good fore and very good hindquarter angulation. Steps narrow behind, hocks should be much firmer. In movement shows good ground cover, good reach, the drive should be more powerful, falls slightly on the forehand. Off lead gaiting showed good movement, falls on forehand. Gun sure.

It must be noted that this bitch is well credentialled in Obedience and fulfills the 'beauty and brains' components of our breed, although shows balance she needs to be more dynamic and expansive in movement.

Dam: Ch Jayshell Winona Brd: Mrs N Mcdermott Exh: Mrs N Mcdermott & Mrs S Bick

Y:2 M:5 D:15 Height/ Depth of Chest: 65/29 Double P1 Upper left. Large, medium strong substantial well proportioned well coloured and pigmented dog of very good type. Strong masculine head, very good strength of foreface, desired expression. Very good length of neck. High wither, firm back. Slightly short well moulded croup. Stands correct in front. Very good fore and good underchest. Good fore and very good hindquarter angulation. Upper arm should be better angled. Steps correct front and rear. Good firmness of hocks and elbows. In movement shows very good reach, powerful drive maintaining his topline. Off lead gaiting showed very good ground cover, maintains his topline. Outgoing character. Gun sure.

The winner of the class is a quality GSD that is not exaggerated, is well angled and because of his pedigree offers an opportunity for further consolidation of type and quality if used correctly. This is a dog that I have seen positively develop since baby puppy: despite his young age he has seamlessly transitioned into the Open Class. His size, strength and high degree of predictability offer breeders an opportunity to utilise his attributes to further consolidate type and moderate construction.

Large, medium strong substantial richly coloured and pigmented dog of very good type. Strong masculine head, very good expression. Very good length of neck. High wither, firm back. Well molded croup. Stands correct in front with a very good fore and short underchest. Good fore and very good hindquarter angulation. Presented in firm and dry condition. Steps slightly narrow front and rear. Hocks should be firmer. In movement shows far reaching powerful gait maintaining his top line. Off lead gaiting performed very well showing far reaching powerful movement maintaining his top line. Outgoing character. Gun sure. This dog is unexaggerated and his construction mirrors what we now consider a moderate angled dog- in fact he impressed with his gaiting performance that saw him maintain his call out position. He is a firm dry dog that displays work like attributes of the GSD that sees our breed able to work all day. It must also be noted he was presented in top condition and I congratulate him on his performance in Obedience over the weekend.</p>
