## Exhibition # 1

12 August 2023

KCC Park Skye

Ms Jo Cathie (NSW)

I must sincerely thank the GSDCV, its officials, members and friends for the invitation and as ever, the warm welcome when judging this past weekend at the exhibition show. Once they work out how to control the weather, the whole set up will be faultless.

The entry was pleasing in quality if not huge in number and some exhibits had travelled from other states for the weekend.

The influence of the Victorian resident sires Ch Conbhairean Freddie and Chili della Valcuvia as well as WA based Vulcano-Uno von der Schnitzerteam were very evident, along with a good mix of youngsters from other males including among them the LSC import Jack Fenrir and the SC medallists Obama Montgison and Alwin Haus Nesgen.

My principal winners were each from the open classes with the exception of the best LSC bitch who was the intermediate winner.

My co-judge Hery Lau made comment on Sunday with regard to the very high standard of LSC animals in this country, and even from this relatively small cross section this is evident for sure.

In general, of note for me was continual good pigmentation and a move toward really consistently good overall proportions with tall short dogs a rarity and no major issues with depth of chest. As always hindquarters are rather deep in the main but for me only a small number were problematic in terms of excess, instability, or any serious affectation of movement. Forehands are improving albeit slowly and several older animals in particular have clearly restricted front reach, however hindquarters were largely well developed and well-muscled with almost all dogs showing good to very good show conditioning.

Several dogs stood on the absolute maximum for size with just one measuring oversize. Mouths and jaw strength were generally very good with only one issue of note and just one animal reactive to the gun test in the open classes.

No general discomfort or temperamental issues were evident even among the younger puppies and in general I had no issues assessing teeth or measuring dogs which is to the credit of the training clubs and owners as we so often see judges faced with a battle.

My sincerest thanks to my steward Kylie Zimmerle for her efficiency and good grace throughout the day and the biggest thanks to the stenographer Judith Strachan who flew through the critiques with me without missing a beat despite my best attempts at a weird accent. They barely needed touching following a quick read. It was lovely to spend the day judging with friends and I appreciate the club's ability and willing to set that up.

I wish the club, its members and its exhibitors further success and enjoyment of our breed. May you all go from strength to strength together.

Very good length and angulation of the neck, high wither, firm back of good length, and a slightly short but well laid croup. Very good angulation in the forehand with good development, very good underline, and very good hindquarter angulation with well developed musculature. Could be slightly cleaner coming towards, clean away. Moves very well with good reach and drive maintaining her lines. A most impressive puppy indeed, I will watch her future career with interest.

Long but somewhat steep upper arm, good underline although the coat is a little bare today, very good angulation in the hindquarter. Ok away, could be cleaner coming towards. Moves well with good reach and drive, the short steep croup spoils the overall line at the moment but I imagine with a little more hair cover that will appear more pleasing.

Slightly flat in the angle of the shoulder which gives rise to a somewhat level wither. She has a firm back of good length, and a slightly short, slightly steep croup. The upper arm could be a touch longer but is well laid, good underline, slightly deep hindquarter angulation. Slightly close away, ok towards. A balanced mover with good reach and drive but a slight tendency to fall on the forehand.

Firm back of good length, slightly short but well laid croup. Very good angulation of the forehand with already good chest development, very good underline, very good hindquarters with good musculature. Moves correct away and back. Gaits very well with very good reach and drive maintaining the overall picture at all times. In the class I would have preferred a little more positive deportment, however she gave a very good account of herself in the challenge. A lovely quality female indeed.

Long, well angled neck into a high wither, firm back of good length into a well moulded croup of good length. Very good angulation in the forehand, very good underline, and very good hindquarters. Presents a most pleasing and very correct picture at all times. Correct both away and back. Moves well with very good reach and drive presenting a very good picture by maintaining her lines at all speeds. For me this female was the clear winner of the class but her reaction to the gun was less than ideal and she was affected enough to lose her first place and effectively best female. A bitch of high above average conformation.</p>
