1. **STOBAR MEDINA** 29/09/03 (*Astasia Heico 'AZ' x *Stobar Penelope 'AZ') Brd/Exh: Stobar Kennels

8 mth An above mediums size, medium strong, feminine expressive bitch of very good type. High withers, firm back, slightly short croup. The upper arm while of good length should be slightly better angled, very good hindquarter angulation. Stands correct in front with normal chest proportions for her age. Good head, good ear carriage, ideally however I would like to see the eye colour a little darker. Steps correct both front and rear with good firmness of joints for her age. During movement shows very good ground covering gait with strong hindquarter drive and free forehand reach with good back transmission. Particularly pleasing is that this bitch is at the right stage of development for her age.

2. **RANDINKA YOKO** 16/09/03 (*Stobar Peete 'AZ' x *Lassland Storm Out 'AZ') Brd: G. Green Exh: G. Green

Good head, however ideally the eye colour could be darker and the lower jaw a little stronger. Steps slightly narrow at rear, correct in front. 11 mths. Large, medium strong well proportioned bitch of very good type. High withers, firm back, well moulded croup which ideally could just be a fraction longer. The upper arm should be longer and better angled, very good hind angulation. Stands correct in front, with normal chest development for her age. Very good feminine expressive head with very good ear carriage. A minor criticism is ideally I would like to see the eye colour a little darker. Overall presented a very good picture in stance and is presented in a very firm and dry condition. Steps correct both front and rear with very good firmness for her age. During movement displays a very good ground covering gait with strong hindquarter drive and free forehand reach. Just a slight distraction is the slight rise over the loin which I am sure will settle with age.

10 mths An above medium size medium strong, well proportioned bitch of very good type. Normal withers, slight dip behind, firm back, well moulded croup which ideally could be a fraction longer. The upper arm is of still good length but should be better angled, very good hindquarter angulation. Stands correct in front with normal chest proportions for her age. Good head, good eye colour, slightly wide set ears. Ideally I would like to see the planes of the skull a little more correct. During movement shows very good ground covering gait however the ligamentation over the back ideally could be a fraction firmer and the withers carried a little higher. For her age the bitch must not become any deeper in lower chest development.

10 ***MANPRINCE TOUCH O CLASS 'AZ'** 1/10/98 (*Key VD Wienerau 'az' Imp Gmy x *Tobareny Devil May Care 'AZ') Brd/Exh: Manprince Kennels

5yr 7 mth 60cm Large, strong, substantial, very well constructed bitch of overall very good proportions and type. Good feminine head and expression. High withers, still firm back and quite good croup. The upper arm whilst of good angle should be a little longer, very good hindquarter angulation. Good fore and underchest development. Just slightly loose pasterns. Stands correct in front. Steps correctly coming and going but with slightly loose elbows and hocks. During movement displays very good reach and drive and ground cover where the back should be much firmer and the wither carried higher. It is unfortunate that this bitch was presented out of coat and not in the best of condition, as she is structurally a very sound bitch. During the offlead exercise the second attempt allowed the bitch to present herself and show her virtues. During the individual presentation it appeared that the tail was lifeless and interfered badly with her movement.
