

Obedience, Tracking & Endurance Committee
HEAT POLICY
For Obedience, Rally Obedience, Tracking and Track & Search Trials
(amended October 2012)

This document is intended for use by Clubs (Trial Secretaries) where the temperature at a trial/s has reached a level where the health and safety of officials, competitors and dogs could be affected.

In applying this policy, it must be remembered that both people and dogs are affected in similar ways by hot weather conditions such as high temperatures, high humidity and hot winds.

Depending on the individual physical condition of both people and dogs, high temperatures can result in the body's natural cooling system not being able to cope and a person and/or dog becoming dehydrated.

It has therefore been decided that:

- (a) a suitable outdoor thermometer to be provided by the Club will be suspended in a location that is open, shaded and no more than ten (10) metres away from the judging rings, and*
- (b) when the temperature reaches 35 degrees Celsius that this shall be the "trigger" for the following actions.*
 - (i) Judging in all rings shall be suspended immediately.*
 - (ii) The Club will then monitor the temperature at 15 minute intervals from the time that the judging was suspended.*
 - (iii) Should the temperature drop and stay below the "trigger" for a period of 15 minutes, the trial shall resume.*
 - (iv) If however after 90 minutes has elapsed since the suspension of judging (i.e. after the 6th temperature check) the temperature is still above the "trigger", the Club shall abandon the balance of the trial.*
 - (v) Should the balance of the trial be abandoned, no refund of entry fees will apply.*
 - (vi) Should any competitor have completed all relevant class exercises prior to a trial being suspended and subsequently being abandoned then any qualifying scores attained will still stand.*

If, because of either their location in Victoria or the time of the year of their fixture, Clubs could be affected by high temperatures at their trials, they may consider rescheduling the starting time of their trial to either early morning or later in the evening.

HOWEVER SHOULD A CODE RED FORECAST BE GIVEN FOR ANY DAY
ALL FIXTURES WILL BE CANCELLED.

Please Note: *It is the responsibility of the Affiliate conducting the trial to monitor the temperature and invoke the OTEC Heat Policy.*
